

BERKELEY and STATE UNIVERSITY

Strange Bugs Are Sent to Scientists for Investigation.

Sixty Employees Walk Out on Strike in West Berkeley.

Faculty Decides Not to Take Action Against Student Rioters.

BRANCH OFFICE, 2121 STANFORD PLACE

TELEPHONE MASON 1761

BERKELEY, Oct. 2.—Professor C. W. Woodworth, head of the Entomology Department of the State University, has just received from Stockton a bug of a changeable color, known to the scientific world as the "Chrysotus auratus." This is the first record of the insect occurring in California, although it has been found on rare occasions in other States on the Pacific Slope.

The color of the chrysotus auratus changes in the light from a beautiful golden hue, stays to a deep purple, and back again through the various intermediate stages. In the opinion of Professor Woodworth, it is one of the most beautiful insects in the world. The bug was received from the world-famous rancher living near Stockton.

The exact cause of this change in color has never been satisfactorily explained in the chrysotus auratus. In other insects, there is known to be a deep-seated color, different from that of the fluids. The fluids of the body flowing over this color, cause a change in the color. As to whether this theory will explain the changeability of the chrysotus auratus is not known. Professor Woodworth will make a study of this problem, and it is expected that further light will soon be thrown upon it.

Professor Woodworth has also received from the hills back of Sacramento a number of leaping insects or bugs, which resemble almost exactly radish seeds. The insect in fact is enclosed in a round gill. The movement of the insect surrounded by this round wooden body, cause the gill apparently of its free will to leap and jump around. The leaping bug is known as the "Cynips Salicis."

FACULTY WILL NOT DISMISS STUDENT RIOTERS.

BERKELEY, Oct. 2.—At a joint meeting of the Students' Affairs Committee of the State University and the Executive Committee of the Associated Students, the matter of the student riot on the Berkeley local was finally settled. In view of the voluntary action taken by the students, the Faculty Affairs Committee decided not to take any action against any particular offenders in the matter. This will finally settle the whole difficulty, as the Southern Pacific, the Oakland Transit Company, and the other parties damaged have agreed to let the proceedings with the payment of damages.

Professor Cory of the Students' Affairs Committee agreed with the Executive Committee that only those bills which can be proved should be paid, and that the students should not be made to pay for damages which they did not do.

ORCHARD FUMIGATORS IN SOUTHERN CALIFORNIA.

BERKELEY, Oct. 2.—Private advice received at the University tell of an interesting investigation into orchard fumigation, which J. S. Hunter, a special student in entomology is conducting in Southern California. The method of investigation employed is to visit each orchard before doing, and obtain the data of the system used, and the measurements of the trees. After the fumigation has been finished, Mr. Hunter again visits the orchard, and gets data upon the results of the work. The idea is to work out a uniform dosage system.

The scales, for the destruction of which, this work is carried on are the black, purple and red scales. The usual method followed is the use of a large piece of very heavy canvas, which is spread over the tree which is to be fumigated. A pot containing diluted sulphuric acid is then placed under the canvas, and potassium cyanide is put in the pot. Hydrocyanic acid is generated, and the fumes of the gas, being a deadly poison, soon kills the scale. An application of forty minutes is sufficient for each tree.

It is reported that the fumigation is done entirely at night as the heat of the sun has a damaging effect upon the trees.

The fumigating process is much more

NO HUMBUG HERE HAYWARDS HAS BAD MAN.

Oakland's Endorsement is What Counts With the Oakland Public.

You can't fool the public all the time. They will find you out at last.

Every time a man is fooled. Another shenanigan is made.

Many the remedy that makes the skeptic.

Because it fails to keep its promises. Doan's Kidney Pills bring renewed reward.

They cure the skeptic. Plenty of proof of this at home.

Oakland proof for Oakland people. Here's a case of it.

Walter J. Plummer, of 1328 Versailles avenue, Alameda, jeweler in the employ of Geo. R. Moss & Co., says: "If the contraction of a cold which settled across the small of my back was not the primary cause of the aching in that part of my anatomy I knew positively that when I caught a cold aggravation of the trouble was very apparent. I have persistently and constantly tried medicines when these attacks were in their height but I met with very indifferent success. From reading an advertisement about Doan's Kidney Pills in a newspaper I was induced to go to the Owl Drug Store for a box. Relief followed the treatment in a few days and since I stopped using the Pills there has not been a sign of a recurrence."

For sale by all dealers; price, 50 cents. Posters-Milburn Co., Buffalo, N. Y., sole agents for the United States.

Remember the name—Doan's—and take no substitute.

NATIVE SONS CLEAR \$3,100 FROM THEIR STREET FAIR.

HAYWARDS, Oct. 2.—Yesterday a stranger giving the name of D. Doherty was arrested by Constable Pann. When found by the Constable the man was hidden in a clump of bushes. A charge of vagrancy was placed against the stranger, his peculiar character, when Mr. Pann was informed of the strange man he went at once in pursuit and captured him in the neighborhood in which he had been attempting to work a very coarse game. The man would approach a house and if met by a woman would tell a hard luck story about needing money. If a man would answer his knock he would ask for something to eat.

At the residence of J. B. Rose, the strange man asked for money, which was refused him by Mrs. Rose. Later he called at the same house and said that he must have money. Mrs. Rose became frightened and later had the Constable informed of the man. After the fellow had been captured, it developed that he had practiced the same game at a number of houses and badly frightened the women, when he became aware that the money was at home. Mr. Pann says he is of the opinion that the man is a dangerous character and possibly an escaped convict. At present Doherty is locked in the local jail, where he will remain until tried before Judge Prowse.

THEY CLEARED \$3,100.

A report has just been made by the Finance Committee connected with the recent Native Sons' Street Fair, which states that \$3,100 is the amount cleared by the fair. This figure, which is not definite, there are a number of departments to be heard from, far exceeds the wildest hopes of the Natives. Shortly after the fair closed an approximate figure of the net was \$2,000, which was thought to be a fair gain and greatly pleased every one connected with the affair. Now the Finance Committee states that the net gain may exceed \$3,000, an amount never dreamed of by the Natives. The total amount of the mortgage on the pavilion is \$4,500, and it was to liquidate this debt that the fair was given. Had half that amount been raised, the Natives would have considered themselves fortunate as Haywards is poorly located for a street fair and the crowd that were present, though large, did not compare with the number of people that attended the Alameda Water Carnival. For that reason the Natives did not expect to clear the mortgage with the proceeds of their street fair. Now they will be able to pay off more than half the indebtedness which has been hanging over the Natives since the carnival.

There is great rejoicing among the Native Daughters as well, as the success of the fair was largely due to their efforts. They have arranged and the Natives conducted them with their other schemes to a profit of \$1,500 towards the net gains of the fair. They also supplied most of the enthusiasm which was slightly lacking on the other side, and to them is due a large share of credit for the successful manner in which the fair was carried out.

The Board of Commerce will shortly issue a complete report of the cost of conducting the fair with the receipts.

OUT OF QUARANTINE.

The home of F. Brebis, which has been in quarantine for several weeks has been released, the patient having recovered. The case was not a dangerous one, but it was carefully watched and as a result there has no spread of the disease.

THEY ARE HUNTING.

A party of local men left recently on a hunting trip for big game. They expect to be gone for several weeks. The party includes John Vandell, J. Haines, Joseph Godell and Manuel King.

The Milk of the Cow.

Is richer in proteins, fats and salts than the human milk, hence it must be adapted to infant feeding. Borden's Eagle Brand condensed milk is the perfection of a cow's milk for infants. Forty-five years experience has made it the leading infant food of the world.

METCALF PREDICTS A BIG REPUBLICAN MEETING.

CALIFORNIA TO SEND SOLID REPUBLICAN DELEGATION TO CONGRESS—NOTES OF THE LOCAL CAMPAIGN.

Congressman Victor H. Metcalf returned to town this morning bright and robust, from his outing and will actively take up the work of the campaign immediately after attending to some accumulated law business.

As soon as he got to his office he began to review his correspondence and to dictate letters.

"While I have been in the country I received advices daily from various parts of the State relative to the progress of the campaign, and consequently have not been out of touch with current events," he said.

"From what I hear the prospects are bright for a big Republican victory in this State. All my information points to the return of a solid Republican delegation to Congress this fall. There are sharp contests in some of the districts, but the trend of sentiment is in favor of the Republican candidates.

Perhaps the closest fight is in the Sixth District, where Mr. Needham is pitted against Gaston Ashe. The district is very close, but Needham is a good campaigner and a very popular man. Two years ago he ran 2,800 votes ahead of the Presidential ticket, and I have little doubt of his re-election by a handsome majority.

"Mr. Coombs has his fight safely in hand, and will be re-elected by a majority running into the thousands. Congressman McLaughlin's election in the Seventh District is conceded, and Captain Daniels is sure of winning in the Eighth.

"I don't think the fight against Congressmen Loud and Kahn can prove successful. Before the campaign gets much older some misconceptions regarding the Chinese exclusion bill will be cleared away, and Messrs. Loud and Kahn placed in a more favorable light with the workmen. I intend, on the stump, to tell the whole history of the exclusion act, and explain the attitude of every member of the California delegation on that measure.

"Senator Gillette has nearly 2,000 majority to go on in the First District, and ought to win handily. He is an able and popular man, and is making a rattling canvass.

"I have not heard from Chairman Babcock for several days, but I have no doubt that the next Congress will be safely Republican. I will be more thoroughly conversant with the situation in the East after I have talked with Congressman Littlefield. He is one of the clearest headed men in the country, and one of the most finished orators in Congress. . . . will be of great assistance to the Republican cause in California, for his ability in presenting political issues is unsurpassed.

"From what I hear I think the election of Dr. Pardee and the re-election of Senator Perkins to be a foregone conclusion. It would be a misfortune to the State at this time for either one to fail of election. However, such a result is exceedingly improbable.

"I will open my campaign about the tenth instant. I have not yet made out my itinerary, but presume I will begin speaking about the time I have

heretofore opened my campaigns, which is the tenth of October. You know that is my birthday, and I like that day for making a start.

"I overstayed my vacation a little, but I wanted one day's shoot before getting back to politics. I had a good day's sport with the quail yesterday, and am as fresh as a lark today. I never was in better condition for a campaign."

METCALF CLUB WILL GET INTO LINE.

A meeting of the Forty-eight Assembly district Metcalf Club has been called for this evening in Becker's Hall at 918 Washington street. For years this club has been one of the factors in the political campaigns and the meeting tonight is called for the purpose of reorganizing and making preparations for the fight.

The regular business of the club was transacted.

The Republican State ticket was enthusiastically endorsed, as were also Hon. Victor H. Metcalf for Congress and John G. Mattocks for the Assembly.

A committee of seven was appointed to arrange for grand rallies to be held during the campaign.

The committee consists of A. Rogers, J. I. Barreiro, G. Almeida, Thomas Rose, A. J. Santos, J. W. Williams and Joseph Lutz.

The next meeting of the club will take place next Sunday at Town Hall at 2 o'clock.

WHITE TO MAKE SINGLE-HANDED CANVASS.

Calvin B. White, the Democratic nominee for Congress, will not have any regular itinerary for speaking, but will make a single-handed canvass of the district without fixed date.

REPUBLICAN MEETING TONIGHT AT IRVINGTON.

The nominees on the Republican county ticket will make their bow to the voters of Irvington tonight. A Republican rally in that town has been arranged by the County Committee, especially for the county candidates. In addition to the speeches there will be bonfires, fireworks, and campaign songs. A big crowd is expected.

RAISING MONEY FOR THE TUNNEL

SUBSCRIPTIONS FOR PROJECT CONTRIBUTED BY THE LOCAL MERCHANTS.

This morning President Theo Gier of the Merchants' Exchange, and J. F. W. Gier, one of the directors of that organization, started out to raise subscriptions with which to aid in defraying one-third of the expense of building the wagon tunnel on the Contra Costa side of the mountains which is to connect with the tunnel now being dug on this side of the range.

The fact that this proposed road was the subject of a bill introduced in this city a large amount of the trade of Contra Costa county which now goes to San Francisco has impressed every citizen of Oakland with the importance of the undertaking and has predisposed them to give liberally toward the furtherance of the project.

Messrs. Gier and Sobel say that they are being warmly received wherever they go and that they have no doubt of their ability to raise the money required, which will be in the vicinity of \$12,000.

BIG JAPANESE LOAN.

LONDON, Oct. 2.—The report that a Japanese loan is to be floated is confirmed. The Baring Brothers, the Hongkong and Shanghai Bank and the Yokohama Specie Bank will issue next week \$25,000,000 Japanese consols bearing five per cent interest. They will probably be issued at par.

OAKLAND FIRM WINS A PRIZE

AWARDED SECOND PLACE IN A NATIONAL WINDOW DISPLAY CONTEST.

The ingenuity and skill of Oaklanders has again triumphed over other parts of the United States and has secured for this city a national reputation as the home of artistic window dressers.

In the early part of this year the firm of Chas. E. Hires, of Malvern, Pa., manufacturers of the well-known "Hires' Root Beer," inaugurated a contest for prizes for the best window display made of their wares and advertising matter. Thousands of stores in all parts of the United States entered the contest and submitted photographs of their display. There were 83 prizes offered, and from the immense number of views received the Hires Company selected for the second prize that submitted by Messrs. McMillan & Cox of Seventh and Market streets, Oakland.

The accompanying views shows the window as dressed for the contest.

While Messrs. McMillan & Cox are receiving congratulations on their victory they modestly decline to take credit for winning the prize, saying that it is entirely due to the work of their efficient employees, to whom they also gave the prize.

The following letter was received from the Chas. E. Hires Company, announcing the award:

"The Charles E. Hires Co., Malvern, Pa., sole manufacturers Hires' Root Beer, Ginger Ale and Lemonade.

"Malvern, Pa., Sept. 18th, 1912.

"Messrs. McMillan & Cox, Oakland, Calif.—Dear Sirs: We have the pleasure of announcing that you have won second prize in Hires' Root Beer Window Display Contest, and herewith hand you our check for \$25, payable in gold.

"Most all of the photographs submitted were of exceptional merit, and you have done well to secure second prize. We desire to congratulate your artist upon his skill as a window dresser.

"We enclose a list of all the prize-winners, and with every good wishes beg to remain, yours very truly,

"THE CHARLES E. HIRSES CO."

UNION LABOR HOLDS A RALLY.

SPEECHES BY CANDIDATES IN THE FIFTY-FIRST DISTRICT.

There was a meeting last night in Milton Hall, at which the Union Labor candidates made speeches. It was specially in the interest of the candidates of the Fifty-first Assembly District.

The meeting was presided over by Lawrence Hyde, President of the Fifty-first District Club, No. 1.

P. J. Ryan, candidate for the Assembly in that district, pledged himself, if elected, to vote for the enactment of a law in favor of the arbitration of strikes.

E. M. Gibson, candidate for Superior Judge, said: "I can see no reason why the people who work for a living

should not band themselves together if they wish to do so, and if they think they can better their condition. The proof of what they can do is shown by the recent election of Mayor Schmitz in San Francisco. Mr. Schmitz has proved himself the best Mayor that city has ever had. He has shown himself to be a man of unswerving integrity who would not yield to corporate influence but dared to stand by the workmen in the great carmen's strike."

John R. Glascock, who is also candidate for Superior Judge, said that he hoped the workmen would stand together and show that they had the courage of their convictions and that they could determine whom they wanted to hold office.

PAPER MONEY IS ISSUED.

PARIS, Oct. 2.—A dispatch received here from Saigon, capital of French Cochinchina, says:

The Siamese government has just issued a large quantity of paper money with the assistance of the Hong Kong and Shanghai Bank. Siamese credit is thus placed under the control of Great Britain.

WON A BIG STAKE.

LONDON, Oct. 2.—Rising Glass won the Jockey Club stakes of 10,000 sovereigns for three and four-year-olds, one mile and three quarters at the Newmarket first October meeting today. Templemore was second and Ard Patrick came in third. Eleven horses ran.

HER DEATH SAID TO BE ACCIDENTAL

CONFLICTING TESTIMONY AND STRANGE VERDICT GIVEN AT INQUEST OF MAMIE LAMPE.

After hearing much conflicting testimony at the inquest of Miss Mamie Lampe of San Francisco, who was run over by the local at Seventh and Henry streets Tuesday morning, the jury returned a verdict of accidental death due to shock resulting from her injuries. The jury exonerated the railroad company and its employees from all blame.

Joseph Openshaw, the engineer of the train, testified that he had noticed the woman near the track when the train was about a block and a half away from the scene of the accident. When his train reached Henry street, the engineer said that Miss Lampe deliberately folded her arms and laid on the track.

The testimony of Engineer Openshaw was fully corroborated by E. J. Murphy and also by William C. Riddle, who witnessed the affair.

Miss Katie Leidig testified that she was sitting near an open window when the accident happened and she saw the deceased fold her arms while standing on the track, but did not see her lie down. Three witnesses thought that the engine had struck Miss Lampe while she was standing.

E. T. Lampe, a brother of the deceased, testified that his sister was subject to fainting spells and for years had been cared for as an invalid. He said that she was very nervous and often complained of a rush of blood to the head.

C. P. McFarland, brother-in-law of the deceased, J. L. Fallon and Walter E. Genesey, friends of the family, testified that they had known that Miss Lampe was subject to fits of illness and thought that she had been seized with one while crossing the track.

Dr. R. T. Stratton testified that the deceased was standing.

Warden J. M. Page says the woman told him just before she died that she had intended to jump off the ferryboat, but had changed her mind. He was not called as a witness.

The jurors were: C. Warner, Henry Moon, O. D. Arendt, C. Scoville, John Craft, G. Mead, George C. Jones, and Charles Dehan.

WILL INCREASE THE TARIFF.

ST. PETERSBURG, Oct. 2.—The Ministry of Finance is about to increase the tariff on foreign wines and brandies to about 87½ cents per bottle for still wines and 1½ for sparkling wines and nearly \$2.50 for brandies.

There was a meeting last night in Milton Hall, at which the Union Labor candidates made speeches. It was specially in the interest of the candidates of the Fifty-first Assembly District.

The meeting was presided over by Lawrence Hyde, President of the Fifty-first District Club, No. 1.
